Please allow us a minute of your time. We are *Life Line Chiropractic*, and we are pleased to be a part of your community. Our practice is located on Robert Grissom Parkway, directly under the American Athletic Club, near Pelican Stadium. We would like to take this opportunity to inform you that one of our goals is to be an active participant within the community and your help would be greatly appreciated.

One of our community events is to educate the public on hot health topics, such as Reclaim Your Health, Fibromyalgia, Arthritis, Stress and how it affects the body, Learning Disorders that affect children and more. These are **FREE** community workshops that can be performed at your facility which lasts about 30-60 minutes. These workshops are available mornings, afternoons, evenings, and weekends. They are great for company “Lunch and Learns”, teachers workshops, church events, and more. Audience participation is recommended and typically enjoyed by those who attend. Information gained from these workshops will enable those who attend with practical information they can use in the future.

Please feel free to contact us so we may sit down and discuss the best options for your school. **As a special treat for your employees we will provide FREE chair massage and a nutrition supplementation presentation as gift from you to your employees.**

We look forward to participating with your company on these community programs.

Yours in health,
Life Line Chiropractic
